## REGISTERED MONEY BADLY CUT UP

**Train Backs Into Mail Clerk  
Transferring Sacks and They  
Mangle Under Wheels**

Several thousand dollars worth of stamps and three packages of greenbacks were badly cut up when Train No. 33 southbound from Cincinnati to Knoxville backed into a mail clerk who was transferring them in a registered package to Train 27, bound for Lancaster, Stanford and Louisville at noon Saturday.

The packages were brought to the postoffice here where they were examined and after straightening out will be forwarded to their destination. The sack containing the real money was cut almost to threads.

Three registered packages of money, two from the Cleveland Federal Reserve Bank to a bank at Stanford, and one from the follow:

Lincoln county—6.2 miles, wa-bank at Lebanon, had holes cut right through the middle. The packages containing the currency were not ripped enough to permit the money to fall out, so the local postoffice clerks will forward them as they are on to their destinations. The stamps were mostly in small books and packages and were scattered indiscriminately about.

The mail clerk got off Train 33 and was stepping over to Train 27 to deliver the registered packages, when his own train backed up a little and struck him. He was not injured but the mail sacks were torn from his back and hurled under the wheels, which passed over them. There were a number of unregistered letters and packages somewhat damaged, also.

The train mail clerk who brought the packages to the local postoffice, wore a pistol as "long as your arm."

## DANVILLE TWIRLER SHOWS HIS CLASS

"Tot" Frank, Danville pitcher who is to work against the local town team here Thursday, pitched the last six innings against the Lexington Reos for Lancaster Friday and let that team down with four hits for the time he pitched. He must have "the goods" and is going to give the locals a run for their money to win this game. Jim Parks is to be on the hill for the Richmond team so the local fans will enjoy a fine pitchers' battle.

The Hustonville team that is to play the Richmond Bears here Monday was defeated by the Danville team Thursday with Rohan in the box for Danville.

## FOUND BIG STILLS NEAR BIG HILL

**Deputy Sheriff Johnson Leads Raid But No Operators Are Found—Berea News**

On Friday, July 22, a party of five men, headed by deputy sheriff Bill Johnson, destroyed two stills in the vicinity of Big Hill in Jackson county, says the Berea Citizen. The stills were located about 300 yards apart on the west side of the ridge several hundred yards south of the Big Hill road. Neither one was in operation at the time they were discovered, tho it was evident that they had not been abandoned for long. The machinery of the first one was found in order vats were mixed and the kettle was ready for use. Some members of the party believed that the operators would be back on the job within a few hours and wanted to leave the still undisturbed until after nightfall when they might return to capture the violators but the sheriff ordered that it be torn up.

The other still was not entirely ready for immediate use, but sufficient equipment appeared to be on the scene and only lacked some replacing. Both stills were located on Berea College land.

## THIS SAYS TOBACCO CROP IS HALF SHORT

**Canvass of State By A Louisville Company Shows Great Dam-age By Drouth**

Louisville, Ky., July 30—Heat blasts of the last two months have caused tobacco plants to shrivel and die, are considered a blessing in disguise.

Immediate rise in tobacco prices is foreseen by the Kentucky Tobacco Warehouse Company, which has just completed a canvass of the tobacco districts and found the planted crop 49 per cent curtailed further by weather conditions under last year. It has been further curtailed by weather conditions.

Since the canvass was completed, according to H. T. Larimore, of Larimore and Perkins, managers of the Warehouse Company, the crop has been further injured by the drought. The total crop, therefore, will be smaller than is indicated by the figures apparent in the report of the canvass, made public yesterday.

The survey shows the following percentages of a normal crop in the burley belt:

Kentucky 49 per cent; Indiana (east of Louisville) 52 per cent; Indiana (west of Louisville) 15 per cent; Ohio 39 per cent; West Virginia, 45 per cent; Tennessee, 45 per cent.

The burley crop planted averages only 50 per cent of the crop planted last year, the report said, and only 25 per cent of an average planting of the one sucker variety of dark tobacco is shown. The Western Kentucky and Clarksville type reports show only 60 per cent of the average planting.

Mr. Larimore said farmers will obtain more money for the half crop than they would have obtained for a full crop. Curtailment of planting in the state seems to have been more extensive than anticipated. The planting appears to have been well distributed, and most farmers have

approximately 100 special observers gathered the data for the reports, assisted by farmers in each county in the state canvassed. As many as 25 growers cooperated in some counties.

The estimated percentage of acreage of burley planted in each county of Kentucky follows:

Adair, 20; Anderson, 57; Barren, 49; Bath, 49; Boone, 43; Bourbon, 70; Boyle, 55; Bracken, 34; Breckinridge, 44; Bullitt, 28; Carroll, 51; Carter, 43; Fayette, 57; Fleming, 39; Franklin, 48; Gallatin, 51;

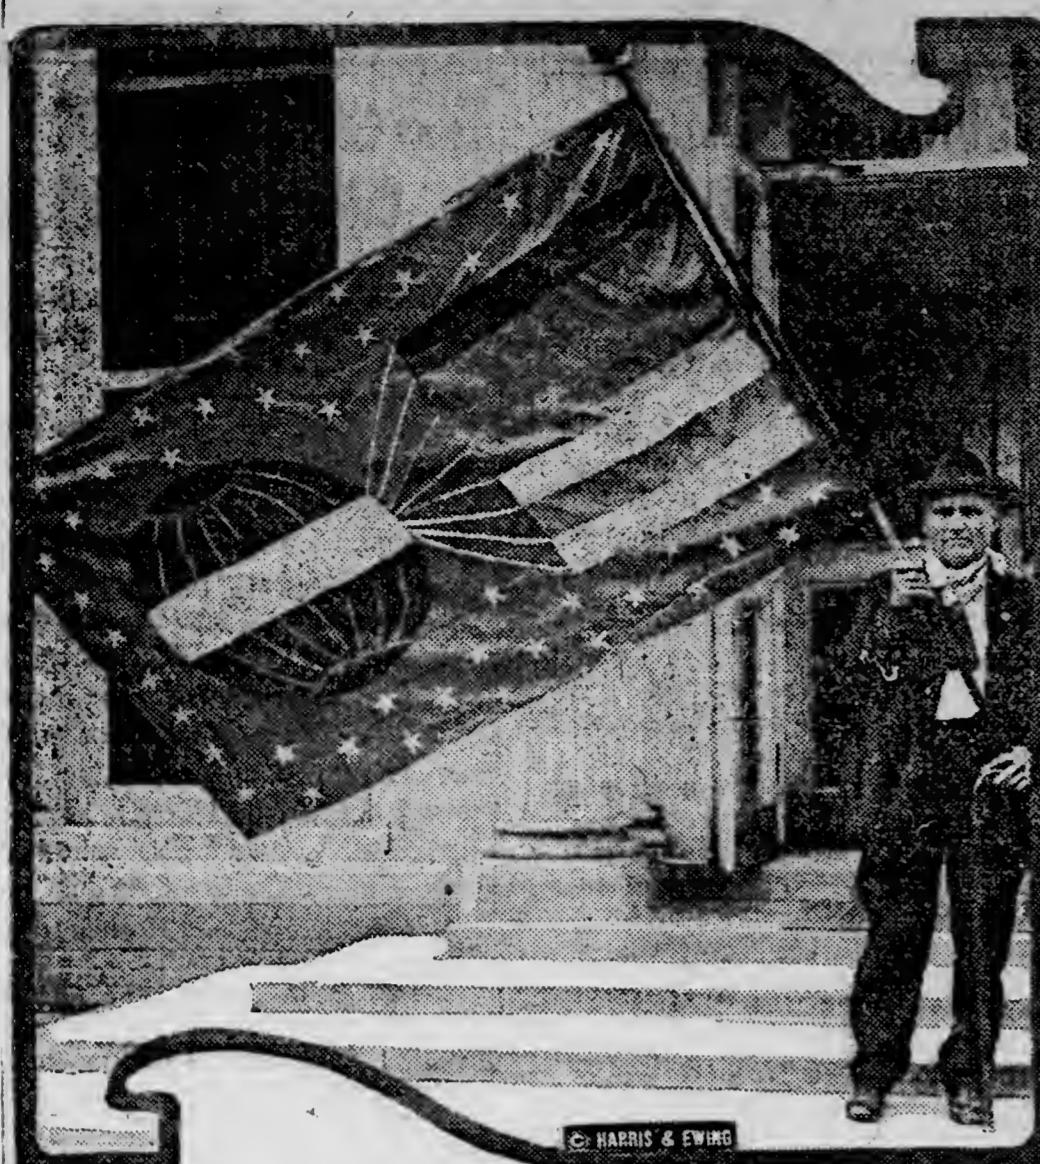

Grant, 44; Grayson, 15; Green, 28; Greencup, 20; Harrison, 64; Hardin, 30; Hart, 45; Henry, 52; Jessamine, 40; Lewis, 59; Lincoln, 52; Larue, 38; Madison, 60; Marion, 60; Mason, 55; Mercer, 55; Metcalfe, 44; Meade, 29; Montgomery, 49; Nicholas, 40; Oldham, 23; Owen, 58; Pendleton, 36; Robertson, 25; Scott, 62; Shelby, 65; Spencer, 55; Taylor, 27; Trimble, 60; Washington, 60; Woodford, 60.

Shackelford Mentioned

**For Governor**

(From Mt. Sterling Democrat) W. R. Shackelford, circuit judge for the Twenty-fifth Judicial district, is mentioned in the political column of the Cincinnati Enquirer as one of three of the most spoken of candidates for the next Democratic governor's race in 1923. It seems as though Kentucky will have to turn to Madison to redeem herself from the republican misrule as she did in 1911, after four years of Augustus E. Willson.

# PAIGE

THE MOST BEAUTIFUL CAR IN AMERICA

## INVESTMENT VALUE

When a man first looks at our "Glenbrook" Model he is captured by the exquisite finish and long, graceful lines. He realizes that it is an unusual art creation—a newer and finer conception of the five passenger vehicle.

And then comes a trial on the road—one thrilling experience behind the motor that accelerates from five to twenty-five miles per hour in nine seconds flat. That ride is never forgotten and it leads inevitably to proud, enthusiastic adoption.

Later comes indisputable proof of low gasoline consumption, long life of tires and care-free, untroubled mileage. And last—but far from least—comes the confidence and respect that only fine products command.

Here, surely, is amazing investment value at \$1635.

### A Statement by Mr. Goodloe

In view of the fact that many false statements are being circulated over the county in regard to me and my race for County Judge, I desire to state to the public that they were all formulated in a fertile brain and without a thought for truth or reason, for the sole purpose of gaining votes.

1—I never at any time had any talk with my opponent or any one representing him in regard to either he or I making the race.

2—I have never spoken of my opponent except in the highest terms nor have I made any statements that he could possibly object to.

3—I most emphatically declare that I have not written a single line to any one about my race or about any candidate or about any prospective candidate.

4—I have made no promises to any one nor have I thought of making such.

5—I am for good roads all the time and will exert every influence I have, both personally and officially, for the improvement of same.

6—I am running my race and no other and the only promise I have or will make is "A clean, honest administration of the affairs of the county with Justice to all and favor to none."

#### INTERSTATE COMMERCE BOARD HEAD ADVISES IMMEDIATE ACCUMULATION OF COAL RESERVES

Washington, July 1—Accumulation of reasonable reserves of coal as a protection against the difficulties of a possible shortage later in the year is urged upon the railroads and the public service companies by Chairman Edgar E. Clark in a letter sent last week to the National Committee on Gas and Electric Service, the American Electric Railway Association, and the Association of Railroad Executives. Chairman Clark points out that a sustained period of car shortage later will result possibly in a repetition of the conditions in coal supply that prevailed last summer.

"As you doubtless know," he said, "the production and shipment of bituminous coal has been and is disappointingly low. You, of course, recall the difficulties of last year during late summer and fall which grew out of the fact that here had been a general inclination to buy and provide necessary supplies earlier in the season."

"In the interest of avoiding a repetition of those circumstances the commission has requested me to write you suggesting the importance, as we see it, of securing as promptly as possible a reasonable reserve against the difficulties that will be presented later if we get into a sustained period of so-called car shortage, and to request that you bring the matter actively to the attention of the members of your association."

"We appreciate, of course, that it is impracticable to put into storage an entire winter's supply. What we are suggesting is the accumulation now while transportation is easy and cars are idle of reasonable reserve supply which will help out greatly if and when the pinch comes. Will you kindly act on this suggestion, and will you be good enough to advise me of your action and the results therefrom."

To meet the country's requirements in soft coal alone, the mines must produce TEN MILLION TONS EACH WEEK STRAIGHT THROUGH THE YEAR.

They are now producing only a little more than HALF the required amount and are steadily falling behind.

In fact, through the month of June, the United States Geological Survey shows that 1921 soft coal production is FORTY-ONE MILLION TONS BEHIND the average for the past eight years.

"If the second half of the year 1921 shows no greater output than the first half," says the Survey, "the total for the year will be less than 400,000,000 tons. The last year which the country required less than 400,000,000 was 1909."

It is not practical for the mines to produce coal and store it, as the extra handling would mean greatly increased prices.

We can order only as the public orders from us, as our yards have comparatively small storage capacity.

In other words, the mines cannot operate unless YOU buy YOUR COAL.

By holding up YOUR orders, you hold up production all along the line.

When Fall comes, the mines cannot possibly produce all at once all the coal that will be needed. If the mines could produce it, the railroads couldn't haul it. If the railroads could haul it, the dealers couldn't handle it.

### MOTHER GAVE IT

**Virginia Lady Suffered With Aches and Pains Until Mother Began Giving Her Cardui.**

Dublin, Va.—Miss Mary Alice Huggett residing on Route 2, near here, recently told a visitor of her interesting experience with Cardui. Miss Huggett said: "I have been suffering for some time with painful pains, didn't feel like going. Would just drag around, and couldn't rest to do any good. I would suffer once a month with my back, sides and head. My limbs would ache and I didn't know what to do, but I knew I must do something, for I didn't get well by letting it run on."

"My mother is a believer in Cardui, for she saw what it did for others as well as herself, so she began giving it to me."

"It wasn't long before I saw a change. It was just what I needed. It regulated me. I began to eat and sleep, and the pain stopped."

"Cardui is without doubt the best female pain medicine and glad I can recommend it to others."

If suffering with symptoms such as Miss Huggett mentions, or other ailments peculiar to women, why not begin Cardui at once? Its merit is well established by successful use for more than 40 years.

# For Representative

D. Willis Kennedy, who is a candidate for the Democratic nomination for Representative in the Legislature, is the only soldier boy running in the democratic county primary to be decided next Saturday.

He will make an admirable representative at Frankfort, and the farmers and taxpayers may rest assured that he will safeguard their interests at every turn.

He pledges himself to fight any and every movement that would increase your taxes—just as he fought the Hun in France.

He pledges himself to do everything in his power to secure lower taxes, to abolish useless offices, to effect all possible economies and work for the interests of the taxpayers constantly, faithfully and efficiently.

You trusted him when you sent him to France to save your homes. You can trust him at Frankfort to save every dollar of your money from taxes that is possible. High taxes and extravagance in the cost of government are the burdens that are proving more than the farmer can bear.

Here's a candidate who looks you in the eye and tells you he will fight your cause, Mr. Taxpayer.

And he will make good. He has never failed yet to keep his word, and he won't fail you this time, if you give him this slight honor.

To Keep First Christians From Winning Out, After They Beat Catholics 11 to 5

(By E. T. Higgins)

The First Christians tightened their hold on first place by defeating the Catholics on the Normal grounds by the score of 11 to 5 Friday. The "Campbellites" secured an early lead and maintained it throughout the contest with little trouble. The victory is largely due to the fine pitching of Ab Oldham, who held the Catholics with an iron hand throughout the game. He struck out a total of 17 men. In three innings he struck out all the men that faced him. Up to the eighth inning Oldham had allowed only 2 hits, both these being made by Charley Rogers.

Charley Rogers attempted to pitch again after winning a game from Waco Thursday, but was greeted with such an array of hits that he had to be removed at the first of the fifth inning. He was relieved by Johnny Allman, who pitched fine ball for the last four innings. Allman allowed only four hits in the innings he pitched and struck out seven men.

The Catholics made an attempt to rally in the ninth but failed to shove more than three runs over the plate. They put in two pinch hitters and both delivered. Allman, the first up, was hit by Ab Oldham. He stole second and third. R. Peyton was safe when Dykes attempted to get Allman at home. Hits by R. Rogers and Agree, combined with a hit batter, produced the other two runs.

A piece of bonehead baserunning on the part of Bob Rogers kept the Catholics from scoring more. Harold Oldham led the "Campbellites" in hitting with five hits in as many trips to the plate.

The win puts the First Christians in such a position that if they lose all the rest of their games and the second placers win all theirs, the flag race would stand a tie.

**Eugene Moynahan Deserves Your Vote**

A striking example of sturdy and substantial citizenship is conspicuously manifest in the person of Eugene Moynahan, who is seeking election to the office of City Attorney of Richmond, at the forthcoming Democratic primary.

Mr. Moynahan is, in the acceptance of the term, a self-made man, and great credit is due him for the indomitable will and perseverance he has exhibited in establishing himself in the practice of law, for most men would have been discouraged under such adverse circumstances. But discouragement was an unknown quality with Eugene Moynahan. Men of his calibre and type have accomplished more in the world than thousands of others who had a brighter future, more promising prospects and a greater number of influential friends.

Mr. Moynahan was born of poor parentage, and he found it was necessary to fight his own way thro' life in order to reach the goal of success. He came to Richmond in the year 1910 and spent several years as an apprenticed stone mechanic, but being ambitious to acquire a better education and equip himself for the practice of law, he applied his time studiously to his books and was licensed to practice by three of the most learned jurists of the state. He was admitted to the bar at Lancaster in March, 1917, and to the Richmond bar in May of the same year.

After engaging in law practice for a short time, however, war against Germany was declared, and realizing that his services were needed in the interest of his home land, he volunteered to take up arms against autocracy and Hohenzollern rule. This was at a time when he could least afford to lose the months and years that meant so much to him in the prosecution of his profession, yet he cheerfully sacrificed the time and endangered his life for the cause that he believed was near and dear to every man and woman in this country.

In September, 1917, he reported to Camp Taylor and in the following March he shipped for France, remaining there until July, 1919. Receiving his discharge on August 2d, he returned to Richmond to cast his lot among his former friends and acquaintances and to serve them as faithfully in the practice of law as he had under shot and shell on foreign soil.

That Mr. Moynahan is qualified to hold the office to which he seeks election, cannot be questioned; and that he would make the city a trustworthy attorney and safe adviser needs not be iterated here. In his election the city would have an attorney whose judgment knowledge of the law and fearless interpretation of its meaning are surpassed by few practitioners at the bar. He could be relied upon to render the most acceptable service.

In aspiring to hold this office, it is not the remunerative feature that attracts Mr. Moynahan, but the desire to serve in a capacity that will redound to the betterment of Richmond, where he expects to spend the remainder of his days.

There is, possibly, no man more deserving of recognition at the hands of the voters than is Eugene Moynahan. He has fought his own battles heroically and he has fought your battles as courageously, and he comes before you at this time to ask that you consider his candidacy for City Attorney and give him an opportunity to prove that his claims of capability are not unfounded, and that the interests of Richmond are his interests in every phase of its government.

## GOLDEN PLEDGES STRICTLY BUSINESS

### Will Seek To Keep Richmond At Forefront—Friends Rallying To Him

In casting about for an efficient and capable man to fill the office of Mayor of Richmond, the many friends and ardent supporters of Mr. Robert Golden were not slow in choosing him as their preferable candidate, the man they felt sure would be the winner in the August primary, and in his election give the people a mayor who would be fearless in his duties, progressive in his ideas and trustworthy in office.

Mr. Golden was born and reared in Madison county. Thirty-four years ago he moved to Richmond where he has continuously resided. In appreciation of his sturdy qualities, forceful leadership and the interest he has always taken in the development and material progress of the town, he has been elected as a member of the city council for eight years straight, the record of no other councilman can exceed Mr. Golden's, showing as it does the high esteem in which he is held by his constituents and the citizenship generally.

If elected Mayor of Richmond, and his friends already have predicted for him a big majority—Mr. Golden promises to see to it that the city gets value received for every dollar spent on improvements and in all municipal departments; that he will have personal supervision over the work, co-operating with the commissioner and other officers in their respective duties. The next four years he would spend as "a servant of the people," advancing Richmond's causes in every way possible. He would also endeavor to lower the taxation rate, yet keep the city clean and up-to-date throughout. The present inadequate drainage system would be improved and all unhealthful rubbish and garbage eliminated. Under his administration he would see that the law was enforced, that peace and order might dominate Richmond.

Mr. Golden is a strong believer in the ladies' prerogative to vote, and if he is chosen the next Mayor of Richmond, he proposes to have a Health Board, composed of some of the best business women of the town two from each ward, and the power be given them to elect the Health Officer.

"If the voters will stand behind me and give me the reins of the city government for the ensuing term," said Mr. Golden, "I will give them an administration that will meet with their approval in every respect. I will set things right, and bring about a betterment of conditions that will appeal to every man and woman in the town."

During the eight years in which Mr. Golden has served on the council he has demonstrated his ability, his qualifications for enacting laws for the betterment of the city, and for a more prosperous community. Possibly no man in the town was more conspicuously identified with the undertaking of making Richmond dry than Mr. Golden. He believed in the principle of prohibition and exerted his best efforts to bring about the change. He has the will power and the initiative. He feels that he can serve the people's best interest as Mayor, and not that they should serve him. Mr. Golden's candidacy was endorsed by ex-Mayor Woods in letter published in the Daily Register some weeks ago and with which the public is familiar.

On account of Mr. Golden's associate in business having been confined to his room for sometime by sickness, he has been unable to see all the voters; hence, he is asking that everyone who is interested in a progressive administration to rally to his support and elect him Mayor of Richmond at the forthcoming Democratic primary, Saturday, August 6th. 177 3

## "LAWN MERE"

HENRY BAUGHMAN'S

## SPLENDID 197 ACRE FARM

SUBDIVIDED

**Live Stock, Etc., Also 2 Small Farms At Public Auction  
On The Premises**

**Wednesday, August 3rd 10 a. m. rain or shine**

This magnificent estate is located 2 1/2 miles from Hustonville on the Bradfordsville turnpike. Everybody knows about the land around the good town of Hustonville—no better in the state

When Mr. Baughman bought handsome property about a year ago for a permanent home little did he dream at that time it would ever be on the market again. But man proposes and God disposes. Since then he has lost his father and it has made a great change. He has already made arrangements with the heirs to take over the home place of his father, J. K. Baughman, and for this reason only is disposing of these valuable holdings at a sacrifice to put the money in the "Old Home Place" around which so many sweet memories and sentiments of by-gone days cluster. It will be an ABSOLUTE SALE.

**IMPROVEMENTS**—Elegant two-story residence of ten rooms, fully equipped, bath room, halls, three porches, large cellar, or dairy, right at door in which things were never known to freeze. Besides the water works system in this home, there is also an Acetylene light plant. Tenant house of three rooms, small barn, two large stock barns, cow barn, jack barn, buggy house, garage, mill shed, cribs, silos and all kinds of outbuildings, including stock scales.

**FINE WATER**—Three everlasting springs, cistern at house medicated water in porch, pond, concrete troughs, etc. In fact enough water for the whole community at any time during the year and the town of Hustonville thrown in. Splendid orchard of about 100 trees, good variety of apples, pears, peaches, cherries, etc. Fencing A-1.

All of this farm lies exceedingly well—a regular tractor farm. Prior to Mr. Baughman's purchase last year it had been in the Carpenter family for over 45 years. It had been carefully farmed for forty years by Mr. Calvin Carpenter. It has been patted and pampered. Is now in the highest state of cultivation and ready to punch and make good money. All in grass except 56 acre in corn, 10 acres tobacco. The best tobacco crop in Lincoln, Boyle or Garrard counties. By their fruits ye shall know them. Just look at the growing crops on this good dirt and judge ye. YOU had better join the crowd and attend this sale. They will be there and one look at this HOME will make your mouth water and long to call it your own. It will be subdivided into tracts to suit the purchaser. The farm is cut into ten fields besides the numerous lots. Beautiful approach, fine shade, lovely location for a HOME, an ideal place to live, splendid neighborhood, etc. This place is all we claim for it and more. Written words cannot do it justice. You must see it to appreciate what it really is. We invite the closest inspection, for we know the more you look the more you will bid. Personality consists of live stock, etc.

Everything about this property is in apple-pie order. Mr. Baughman has spent a lot of money putting in hardwood floors and other improvements. He knows that he has got to lose all of this and a pile of money on the farm. Let come what will you will always find Henry Baughman a MAN—his words is always his bond and he is game to the core. He invites you to this sale and asks YOU to say what it is worth and he is going to make you a deal.

At the same time and place we will sell for him the High Dollar a 30-acre tract adjoining the above tract. All in grass. Has a good ten-acre tobacco barn and everlasting water.

Also what is known as the "Crisp Place," containing about 56 acres one mile off Bradfordsville pike. Every acre of it is hemp and tobacco land. All of it in blue grass and timothy except six acres in corn. It has been in grass for years and years. Well watered and fenced. Small orchard. House of six rooms, new porch, halls, etc., cistern at door, good stock barn and four acre tobacco barn, and all other necessary outbuildings. A dandy little home for some one.
